

“Angels of Mercy”: Medical Outreaches in the Delta

“Harpur Hospital is like honey. The staff is generous and they serve all people.”

“Thorough examination and good doctors, Harpur is simply perfect.”

“Very excellent people because they serve the community and they are like angels of mercy”

This is what patients treated through the medical outreaches say about Harpur Memorial Hospitals. These hospitals are working in partnership with Misr il-Kheir to do medical outreaches in Menoufia, in the Nile Delta region of Egypt. This partnership has resulted in 52 outreaches, treating people living in villages with little access to health care.

Learn about the how God is at work through the medical outreach program.
